

Fund Benevermedex - Assure your future

What is it about?

The Fund Benevermedex - Assure your future launches a call for scientific research projects related to:

- the prevention of human damage within the domain of private insurance (eg: traffic accidents, industrial accidents, personal accidents)
- the improvement of the quality of the evaluation, recovery and compensation of this human damage.

Application form available on the English webpage

The application will be preferably filled in in English.

To get a first idea of the kind of information that you will be asked to provide, you can download the annexes below.

Please note [... more](#)

Who is it for?

Dutch-speaking persons or institutions (Universities, Colleges, etc.) in Belgium.

Selection criteria
